Subject: Microsoft settlement

It is my opinion as a citizen of the United States that the creation of a product using the gifts of intelligence and foresight should not be punished. We have encouraged within our nation the free enterprise system. Microsoft, through superior development and insight into consumer needs, has produced a superior product. This in no way deserves punishment, due to the jealousy of competitors.

I believe that this company deserves the freedom to continue producing products that benefit the consumers who purchase them.

Thank you for considering my opinion.

Sincerely,

Debra L. Banks
